

DUROTECH PIPE COLLAR

Elastic sleeve for a permanent sealing of pipe passages in combination with sealing systems under tiles.

DESCRIPTION

Durotech Pipe Collar is watertight, permanently elastic sealing. The packing is made from NBR-Rubber with is one sided fleece coated. This material basis causes an excellent bonding with almost any waterproofing materials used under tiles extending over the entire surface of the packing.

APPLICATION

Durotech Pipe Collar is suitable as permanently watertight sealing on wall areas for pipe passages of shower and bathtub water fittings under ceramic coverings. The packing is complete embedded into the sealing compound.

PREPARATION OF THE SUBSTRATE:

The preparation of the surface depends on the respective waterproofing system used.

USE

The packing is put over the pipe passage, laid and pressed into the fresh sealing mass. When applying the second coating with the sealing mass the entire packing is coated as well. When the waterproofing system has to be applied in one coat the packing is laid into a previously applied thin layer of the system before the system is applied over the whole area.

TECHNICAL SPECIFICATIONS:

Measurements: 100 up to 250 mm
Temperature resistance: -20°C to +90°C

INFORMATION ON FURTHER PROCESSING:

Durotech Pipe Collar is absolutely silicone-compatible; a soaking must not be expected. For lining the joints usual silicones may be applied. Solvent-free adhesives and coatings may be applied directly onto the Durotech Pipe Collar. Before applying further products a compatibility test has to be carried out.

CLEANING OF TOOLS AND EQUIPMENT:

Tools and soiled areas should be cleaned immediately after use with water.

STORAGE

Durotech Pipe Collar can be used for a period of at least 24 months when stored in a cool and dry period.

SUPPLIED AS:

10 pieces/carton
25 pieces/carton

SAFETY INFORMATION:

The product is not hazardous as defined in the (German) Hazardous Substances Code.

DISPOSAL:

May be disposed of as building site waste
