NOTES

It is recommended before commencing the application; that adhesion of products to be used (e.g primers, membranes, coating adhesives etc) is tested over a typical area of the prepared surface to ensure satisfactory adhesion. It is the responsibility of the applicator to carry this out and accept the substrate suitability before any application starts. Durotech Industries offers a service for pre-testing adhesion to surfaces for large commercial areas or unusual substrates. For further details contact Durotech Industries.

Details contained in product data sheets are general. For any situation or items not covered in this data sheet, it is the responsibility of the applicator to check with Durotech Technical Services before commencing with the application. A written confirmation will then be issued by Durotech Technical Services.

CLEAN UP

CAUTION: Spills are difficult to remove. Wet tools can be cleaned with DUROTECH™ XYLENE. Do not allow any of these products to enter drains and waterways.
